

PureOHS™ Module: clinical suite

The PureOHS™ clinical suite module streamlines the documentation process with robust, user-friendly tools to assist with the daily demands of employee encounter management.

Medical providers must document their interactions with employees during every visit. PureOHS™ iForms makes it easy with quickly customizable templates.

Key benefits

- **Flexible charting tools**

PureOHS™ iForms come with pre-existing content and dictionaries, including templates that can be used or customized to fit the provider's specific workflows.

- **Automatic transcriptions**

Automatically transcribe the data collected in iForm's discreet fields to a fully transcribed note that can be signed and locked.

- **Robust reporting**

Configurable dashboards tailored for your specific reporting needs.

- **Encounter log**

Simplified encounters log for easy viewing and reporting.

- **Efficient and optimized process flow**

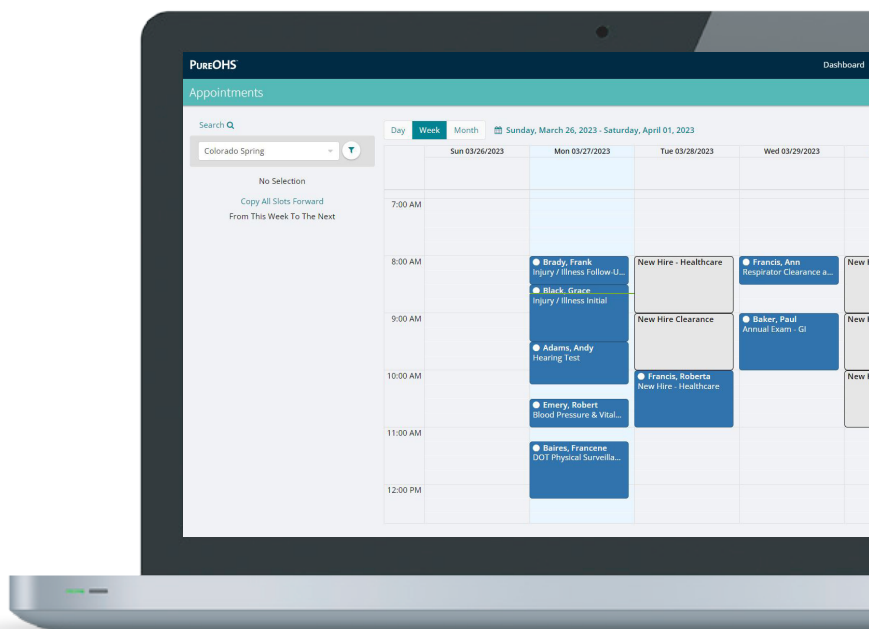

Configurable encounter screens to support streamlined workflow.

- **Paperless**

Electronic forms that can be completed and signed by employees or clinic users, eliminating paper documents.

- **Electronic medical records**

Easy access to patient history, medications and medical conditions.
